# “QUEBEC AND THE UNITED STATES: OPEN AND INTEGRATED PARTNERS”

## John Parisella

Senior Representative of Quebec to the United States

**Friday, September 24, 2010**

12:30 pm -2:30 pm

1717 Massachusetts Avenue, NW, Conference Center  
Room B500 – **Fifth Floor**

Sponsored by **Canadian Studies Program**

The Quebec Delegation, headquartered in New-York City, promotes the interests of the province of Quebec in the United States in the areas of business, investment, government institutions, education, culture and public affairs.

With a territory of over 643,000 square miles, larger than any US State, and holding 3% of the world's fresh water resources, Quebec is a world-leading hydro-electricity producer and a strategic energy supplier to the US. Each year, \$75 billion of goods and services are traded between the US and the province of Quebec, attesting to the strong ties uniting them.

Mr. Parisella will address the numerous linkages between the Province of Quebec and the United States at the sub-federal level, as well as the prospects for further continental integration, and will answer questions from the audience.

**Lunch will be served starting at 12:00 pm.**

**RSVP required:** please call Starr Lee at 202 663-5714, or via email at [starr.lee@jhu.edu](mailto:starr.lee@jhu.edu).
