

Report on Course Bidding at JHU-SAIS Spring 19

This report presents summary data regarding bidding for numerically imbalanced and oversubscribed courses at JHU – SAIS for the Spring 2019 semester.

The course bidding process was introduced to provide a fair structure through which students would gain access to a class when it was oversubscribed, and in the case of the foundation economics courses of Microeconomics, Macroeconomics, International Trade Theory and International Monetary Theory, to balance attendance in various sections of the same course.

Courses eligible to go to bid in round one included ALL limited enrollment economics courses. This was the first year all economics courses went to bid in Round 1. Limited enrollment courses that became oversubscribed during the first week of classes went to bid (Round Two) at the end of that week.

Correspondence was sent to students via email prior to and at the start of the semester regarding bidding. The information sent to the students via email (to their JHU accounts) included their degree status, advisor, points available to bid, primary concentration and semester standing. For bidding purposes, only one concentration is considered for MA students with multiple concentrations. International Economics is not considered for bidding preference. Students were asked to reply with any discrepancies in their records by a set deadline before the start of the semester. The emails also included directions on how to bid, a link to the bidding website, and important bidding dates and deadlines. Students were also informed that it was their responsibility to view the bidding website to check the latest list of the courses that would go to bid. If possible students were notified by email if they were registered for courses that went to bid, and whether they did or did not need to bid.

Spring 2019 was the 18th academic period where MIPP students had the opportunity to affiliate with an Academic Program. Some programs offer priority seating in all of their courses for MIPP affiliates, while some programs limit their MIPP students to a priority seat in ONE course.

Five classes went to bid in Round 1 for the Spring 2019 semester. Fourteen classes went to bid during Round 2.

Spring 2019 Bidding Special Rules

NEW RULE – All limited Economics courses (start with SA.3%) will be eligible for bidding in Round 1 only.

SA.660.779 American Intelligence: Role Practice and Impact with Professor McLaughlin, priority seating for 2nd year Strat Studies and MIPP Strat affiliates.

SA.680.697 Global Energy Fundamentals with Professors Banks/Hengel, priority to 1st and 2nd year ERE MA concentrators.

SA.680.698 Global Environment Fundamentals with Professor Wang, priority to 1st and 2nd year ERE MA concentrators.
