An admissions requirement is that all students under age 26 as of September 2, 2014 must provide proof of having had the following immunizations: Two doses against Measles, Mumps, and Rubella, given after 1 year of age and at least 30 days apart, and one Diphtheria/Tetanus booster given within the past ten years. This form should be completed with your physician so s/he can consolidate any records you may have in your possession with information in your medical file and update missing immunizations. **PLEASE TAKE NOTE:** Incomplete immunizations, invalid dates, or forms which lack a validation stamp will not be processed, and will delay your registration. **THIS FORM IS DUE BY AUGUST 8, 2015.**

Had the disease, confirmed by a copy of original office records which are included.  
If immunity is based on antibody titer a lab report must be included with this form.  
Immunized after first birthday  
Immunized at least 30 days after Dose 1

RUBELLA  
If immunity is based on antibody titer a lab report must be included with this form.  
Immunized after first birthday  
Immunized at least 30 days after Dose 1

Request for Exemption  
Religious exemption is allowed if the student objects in good faith, in writing, that immunizations violate his or her religious beliefs. Medical exemption is allowed if a physician or health authority deems an immunization medically inadvisable. Explicit written documentation supporting an exemption request must be submitted with this certificate.

Religious Exemption  
Medical Exemption

Healthcare Provider: Thank you for taking time to assist us with this important task. We know that vaccine-preventable diseases occur on college campuses where students are not immunized or inadequately immunized. You help us to protect Johns Hopkins University students and their contacts by not accepting anecdotal information and by submitting immunization data from your office records, or from records presented for review which include complete dates (month/day/year) of administration. Where records are missing or incomplete, updating immunizations helps to ensure that the student is protected, and enables him/her to complete requirements for matriculations at Johns Hopkins University.
